Subject: Re: Drinking Water Program support for Dimock and related resource extraction impacts to drinking water

Thanks Bill. Important to build some bench strength and continuity with this matter which is likely to continue for several months. Just ask that she maintain good records of her involvement due to multiple FOIAs expected.

Subject: Drinking Water Program support for Dimock and related resource extraction impacts to drinking water

Jon / Cathy

Ellen Schmitt will be the Drinking Water Branch Point of Contact for the Dimock project and other issues that are related to resource extraction and potential drinking water impacts. Ellen will draw upon other branch resources such as State Program Managers and the source water protection team lead. She will also assist our enforcement branch as needed

We have others in the branch that also participating in resource extraction activities that vary from our participation in the DBP RARE project to assisting in mapping or source water protection efforts. Ellen as the POC for the branch will be familiar with these efforts but focus on the Dimock issues.

Thanks
Bill
